Puppy Health Care Package

Congratulations on the addition of a new family member! Along with all the love and energy a new puppy brings comes the responsibility of providing good quality care for your newest member. Proper care during these growing months will help to ensure the future health of your pet. We have developed two Puppy Health Package options which allow us to bring you the best possible price for routine puppy health care. These packages includes physical examinations, vaccinations, deworming medications, routine diagnostic tests, Science Diet® food starter kit, microchip, tick and flea protection and educational materials that we recommend to get your pet off to a great start.
